

WHO WE ARE

Mission

RACE Dance Collective is a 501c3 nonprofit dance organization whose mission is to ignite social awareness and change through dance performance, education, and community engagement. RACE, which stands for Radical Application of Creative Energy, was founded in 2009 by Korean American immigrant Hui Cha Poos to create more performance opportunities for professional dancers in Oklahoma.

Vision

RACE's vision is to build a community that redefines who engages with dance and how. Through collaborative partnerships, RACE facilitates interaction between people of all backgrounds and provides artistic activities that can break down cultural barriers while creating friendships and understanding.

Values

RACE's core values are accessibility, diversity, inclusion, equity, and empathy. These values are easily identified through each layer of the organization, from the professional dancers, Board of Directors, community dance class participants, and the audiences that engage in performances and events.
